

TIRE MOUNTED BLUETOOTH® TPMS SENSOR

The Tire Mounted TPMS sensor with Bluetooth® communication enables a reliable and secure communication technology while being compatible with an automotive-compliant VDA standard container for tire attachment.

The TPMS sensor measures tire pressure and temperature directly on the tire and transmits the tire condition with additional tire-related information regularly to the vehicle receiver.

SPECIFICATION

ITEM	DESCRIPTION
PART NUMBER	
PRESSURE RANGE	0-12 Bar
OPERATING TEMPERATURE	-40°C To +125°C
SPEED LIMIT	Up to 250 km/h (higher speed versions available on request)
BLUETOOTH® FREQUENCY	2,4 GHz
TYPICAL BATTERY LIFETIME	5 Years
POWER SUPPLY	3V Battery
WEIGHT	9 g
DIMENSIONS	Diameter 25 x 12 mm
DATA TRANSMISSIONS	2-Minute Interval
CUSTOMS TARIFF NUMBER	90262020
COUNTRY OF ORIGIN	Germany

SUITABLE FOR
**PASSENGER CARS, LIGHT, MEDIUM AND HEAVY DUTY
 COMMERCIAL VEHICLES**
 COMMUNICATION
BLUETOOTH®
